

Attention ICF Providers

A new cost report template has been created for ICF/DD providers. You may access this at <http://www.mslc.com/louisiana/CaseMixDownloads.aspx>. This template was created in order to accommodate the accountability of add on rates for complex care and pervasive plus. All providers must use this template for cost reports this year and going forward whether you received either of the add on rates or not. For questions, please call Lana Ryland 225 342 9488.
