

### **Attention ICF Providers**

Recent weather events have impacted many providers and individuals in the State. The Department recognizes this impact and the effect on day to day activities. Cost reports for ICF/DD providers will be granted an automatic 30 day extension in an effort to lessen the worries as everyone works to get back to a sense of normalcy. If you need an additional 30 days, please submit a request as required. For example, your cost report will now be due October 30, 2016 but if you need an additional 30 days, you may submit a request for the additional 30 days and your cost report would then be due by 11/30/2016. Cost reports will then be subject to nonrefundable penalties beginning 12/1/2016.
