

## **ATTENTION ALL BEHAVIORAL HEALTH PROVIDERS**

### **RECYCLE OF CLAIMS DENIED IN ERROR DUE TO DIAGNOSIS CODING ISSUE**

It was brought to our attention that some behavioral health claims for dates of service beginning 10/1/15 denied for invalid diagnosis code (T Codes with error code 433) when the correct ICD-10 diagnosis code was presented on the claims. The issue with the ICD-10 code table has been corrected and impacted claims will be systematically recycled on the **04/12/2016** Remittance Advice (RA). No action is required by providers and we apologize for any inconvenience this has caused.
